Laptop Prep for "Data Literacy with Excel Made Easy"
TDWI Las Vegas – February 2020

Microsoft Excel

The minimum course requirement is installation of Excel 2016 for Windows or Mac prior to the start of class. Newer versions of Excel are acceptable.

In the event you do not have access to the required version of Excel, Microsoft offers a 1-month free trial of Office 365 at the following URL:

- https://products.office.com/en-us/try

Excel Lab Workbook

The course will leverage an Excel workbook for all labs and is required prior to the start of class. The workbook is available for download via the following link:

- https://github.com/DaveOnData/TDWILasVegas2020/blob/master/DataLiteracyLabs.xlsx

On the GitHub page click the "Download" button and save the file to your local hard drive:
